

**BOWTIE GARDENS – GARDENS THAT GIVE
SPONSORSHIP OPPORTUNITIES**

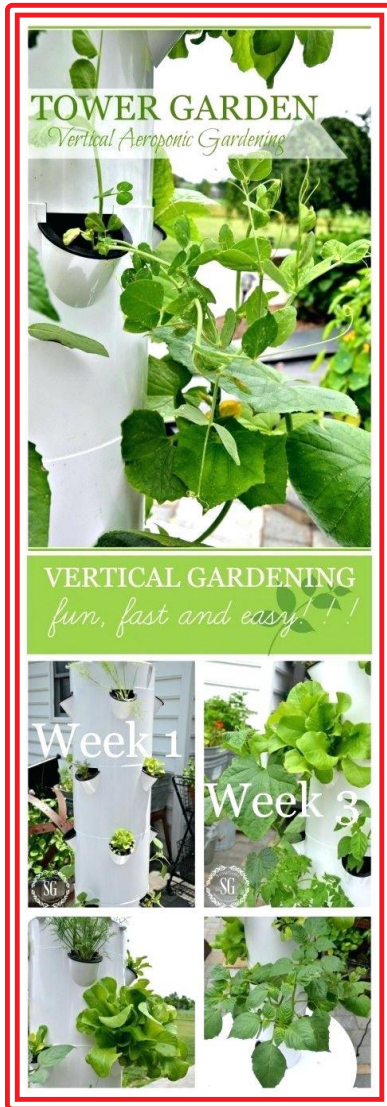

COURAGE & CONFIDENCE FOR KIDS WITH CHRONIC PAIN

BOWTIE GARDENS – GARDENS THAT GIVE:

Program Overview:

Bowtie Gardens - Gardens That Give is a program of Bowtie Kids a 501(c)(3) nonprofit, charitable organization, whose mission is to support, nurture and empower children and their families impacted by chronic pain through education and support programming, so that they can secure a better quality of life. 1.7 million children in the U.S. are suffering with chronic pain, and Bowtie Gardens – Gardens That Give is the foundational platform to engage children, families, and community stakeholders to create an educational, fun, interactive, sustainable network of support for those we serve. **Our Bowtie Gardens – Gardens That Give Mission** is to create connection, community, sustainability, and fun for Bowtie Kids through gardening, so they can grow to nurture themselves and others. Through Bowtie Gardens, we are committed to **Our Vision** of creating a community of support, sustainability and empowerment.

Only 12 Available

Benefits:

- Logo plaque on tower base
- Highlight your organization at ribbon cutting ceremony
- Logo in all printed, online and video promotional materials
- Dedicated social media appreciation posts

COURAGE & CONFIDENCE FOR KIDS WITH CHRONIC PAIN

SPONSOR BENEFITS:

As a company who is invested in the communities where you live, work and serve, your organization is a natural partner to collaborate with for Bowtie Gardens – Gardens That Give. Bowtie Kids takes our requests for community collaboration very seriously. You commit to help kids and families, and in return we promise to deliver a partnership that builds a legacy of connection, community and sustainability.

CONNECT WITH YOUR CUSTOMERS:

Customers are getting more and more discerning about which companies they do business with. What better way to communicate your values than by sponsoring an initiative that matches theirs.

TELL YOUR STORY & WIN NEW CUSTOMERS:

Through a partnership with Bowtie Gardens, you'll have unparalleled in-person access to thousands of people when you become an integral part of the program through sponsorship. You also get to participate in our ribbon cutting ceremony, and Harvest In Hand events.

GIVE YOUR TEAM SOMETHING TO SMILE ABOUT:

Responsible companies like yours know how important it is to get your team involved in giving back to the community. Your culture of commitment is exemplified by your associates. As a partner with Bowtie Gardens – Gardens That Give, your team has another opportunity to demonstrate the importance of service, and community engagement.

WITH TOWER GARDEN

WHAT IS TOWER FARMING:

The Tower Garden system is an advanced form of hydroponics. It is an aeroponic growing process that utilizes an air or mist environment rather than soil. Aeroponic systems use water, liquid nutrients, and a soilless growing medium to quickly and efficiently grow more colorful, tastier, better smelling and incredibly nutritious produce.

WHY THE TOWER FARMING PLATFORM:

What better way to teach participants important lessons than through experiential learning. Our goal is to find creative meaningful ways to connect children impacted by chronic pain to the world around them. Choosing gardening as the paired activity for our 1st Empowerment Principle, Self-Discovery is essential to laying the foundation for participants in our program.

BENEFITS OF TOWER FARMING:

- Environmentally conscious
- Engages participants with a hands-on project-based learning experience that can improve school attendance and student test performance
- Compared to traditional growing methods, aeroponic technology:
 - ✓ Increases yields by an average of 30%
 - ✓ Grows plants up to 3x faster
 - ✓ Uses as little as 2% of the water
- Vertical design uses 90% less space
- Self-contained, portable
- Includes lesson plans to teach students about a variety of subjects
- Offers a sustainable, scalable revenue source

BENEFITS OF AEROPONICS
compared to soil gardening

"No digging, no weeding, takes up much less room, low maintenance, veggies grow bigger, stronger and faster than in the ground... The list is endless!"

"Use less space, less water. More earth friendly, and new studies say that yield is greater! No dirt, no kneeling, no worms. I love my Tower!"

"I don't have time, a green thumb or good soil to grow conventionally. The Tower Garden makes it possible for me to grow great tasting nutrient dense indoors year round with little effort! It is simply amazing!"

"Faster growing times, space saver, no weeds!"

"I live in apartment and this is the only practical way for me to grow my own veggies, herbs and flowers without the mess and fuss of soil and fertilizer."

"Easier, faster, waters itself, no weeds... I could keep going. I am too busy for traditional gardening, but Tower Garden does wonders for us!"
